What'cha Gonna Do

Kris Kristofferson

You never known anyone else but me
And now you're free, whatcha gonna do
When you're alone, you fall down
And I'm not around, whatcha gonna doAnd when you reach out for me
Findin' I ain't there
And nobody care, whatcha gonna doJust think of the lonely road ahead
It goes bad, whatcha gonna do
Think about all we've almost had
Make it sad, whatcha gonna doHow will you make it through the night
When you're all alone
You'll remember me and all those good times
That we've known
Who will you lean on, whatcha gonna doHow will you make it through the night
When you're all alone
Who will you lean on, whatcha gonna doWhatcha gonna do
Whatcha gonna do
Whatcha gonna do
Whatcha gonna do
Whatcha gonna do
