All for You

Imelda May

Watch my lips while I'm telling you this
Yeah it's all for you
Every flick of the wrist, every swing of the hips
Yeah its all for you
When I toss my hair, throw my head in the air
It's all for you
Every hook, every clip every twitch of the zip
It's all for youI'm spelling it out it's not written in code
I want you so much I think I'm gonna explodeWatch my lips while I'm telling you this it's all for youAll for youWhen I move real slow, babe I want you to know
It's all for you
Every bump every grind oh I think that you'll find that
It's all for youI'm spelling it out it's not written in code
I want you so much I think I'm gonna explodeWatch my lips while I'm telling you this it's all for youAll for you
