

What A Wild Tune

Barenaked Ladies

Last night I heard the wolves
Last night I heard the wolves
Last night I heard the wolves
They were howling at the moon
Howling at the moon
Howling at the moon
What a wild tune
They were howling at the moon
Last night I heard the breeze
Last night I heard the breeze
Last night I heard the breeze
It was singing through the trees
Then I heard some frogs
Then I heard some frogs
Then I heard some frogs
They were croaking on a log
There's music in the air
There's music in the air
There's music in the air
And the air is everywhere
Last night I heard the wolves
Last night I heard the wolves
Last night I heard the wolves
They were howling at the moon
Howling at the moon
Howling at the moon
What a wild tune
They were howling at the moon
