

# Sweet Emmylou

## Joey + Rory

Sweet Emmylou, I blew the dust off you  
You're the only one who knows what I'm going through  
And like the hickory wind, he's gone again  
Sweet EmmylouSweet Emmylou, as the needle runs through you  
The way the pain shines through  
Well, I know you've been there too  
Those sad melodies, oh, how they comfort me  
Sweet EmmylouWell, I hate to bother you again  
Last time you helped my poor heart mend  
Then he came along  
So I put your records all away  
Thought happy songs was all I'd play  
But I was wrong, oh, I was wrongSweet Emmylou, what are we gonna do?  
It's only been a week or two  
And he's found someone new  
Looks like it's gonna be  
Another night of you and me  
Sweet Emmylou
