Life In Fast Forward

Catchpenny

the only one who takes my fears away
this time it will be for sure
the only one who takes me all the way
from the bottom
up from solitary conversations
of talking to myself
ill bend but not break i will
ill give up all my own will

hold me untill the world stops skaking
take me through the lives im bringing
trust me as far as i can go
woah woah woah
this is not my last resort
hold on hold on
hold me before the world stops shaking more

i never thought I'd end up here today
a hundred miles from anywhere
i thought I'd ever be
turning back now seems like years away
(this time it will be for sure)
turning back will lead me to
the only place i need to be

ill bend but not break i will
hold me untill the world stops skaking
take me through the lives im bringing
trust me as far as i can go
woah woah woah
this is not my last resort
hold on hold on
hold me before the world stops shaking more

this is life in fast forward
rewind start over
life in fast forward tonight
this is life in fast forward
rewind start over

life in fast forward tonight

hold me
take me
trust me as far as i can go
woah woah woah
this is not my last resort
hold on hold on
so hold me before the world stops shaking
more and more and more and more

(hold me, take me, trust me as far as i can go)
this is life in fast forward
rewind start over
life in fast forward tonight
