

# Bring It Down

## Columbia

Ya Ive been here once before  
As my heart goes through the floor  
But then I find my self  
I go round my way I go round the way I know And everything that starts must end  
now youre not even my friend  
So I should find my self and go round my way  
Go round the way I know cuz I fell Im going down once again  
I feel Im going down Bring me down one more time  
Bring it down tonight  
Cuz what youre saying to me I dont hear Thought I finally had it right  
The girl Im dreaming every night  
Then she changed my ways  
And I lost my self ya I lost just who I am I feel I was there for you  
Now I see just whats true  
So I find my self  
I go round my way I go round the way I know Man I fell Im going down once again  
With you Im going down Bring me down one more time  
Bring it down tonight  
Cuz what youre saying to me I dont hear  
So Bring me down one more time  
Bring it down tonight  
what youre saying to me I dont hear Now, now I see just whats going on  
I can see just where I went wrong  
Now I need to be my self again  
So maybe I should go my dear friend Bring me down one more time  
Bring it down tonight  
Cuz what youre saying to me I dont hear  
So bring me down one more time  
Bring it down tonight  
Cuz what youre saying to me I dont hear
