

Rotten Inside

Earshot

Once was a time
I'd give my world to you
But it was never enough Swore by your hand
But you never told the truth
That's when I saw myself in you I'm rotten inside
I'm weak and I'm frightened
Of the things that you might find
I'm rotten inside again
I'm weak and I'm frightened
Of the things that you might find What could I
(What could I)
Do to make everything alright? Left me again
Like I always thought you'd do
That's when I saw myself in you I'm rotten inside
I'm weak and I'm frightened
Of the things that you might find
I'm rotten inside again
I'm weak and I'm frightened
Of the things that you might find
That you might find And though I try I can't forget
The way you looked at me and said I'm rotten inside
I'm weak and I'm frightened
Of the things that you might find
I'm rotten inside again
I'm weak and I'm frightened
Of the things that you might find
