

Fallen Angels

Black Veil Brides

Fallen Angels BVB

Scream, shout (x2)

We are the fallen angels.

We are the in between cast down this on the world
Struck to the earth like lightning on this world we're torn

We will cause the pain of living out there love
Take joy in who you are
We know how wings are flown

Bridge:

We are born to protect the heavens and down the lonely hell
We only want to be ourselves.

Chorus:

We scream, we shout
We are the fallen angels.
We scream, we shout woahhh woahhh
Too lost to see the road
No need to build this sorrow
We scream, we shout woahhh
We are the fallen angels.

Follow the rolling stone around with darkness trail
The passion left unholy
Now you found yourself

We are the way to go, the one to wish us well
Across to find our home to find our stories they will tell
