

# Feel This Way

## Dorrough

Ha, yuh, Dorrough music  
North side, South side, East Coast  
West Coast, Midwest  
From my city to yo city  
(Dallas, Texas)  
From yo hood to my hood  
(Say)  
Right now, I present to the world  
Tomeka Pearl  
Put one hand, cross my heart  
Want nothing see me apart  
From my home where I start  
I'm too smart and all I know is  
You can take me from my hood  
But you can't take my hood from me  
I rep my hood, it's understood  
Say what 'chu want but all I know is  
Say, it's a funny day in the hood  
And everybody and they momma out  
I must admit today, I'm kinda feeling good  
Ain't nobody beefing  
And none of my niggas out up in the feds  
So the laws ain't gotta be said  
'Cause it's understood  
And you know the game  
It ain't nobody showing love  
Unless you gotta name  
And don't nobody turn they head  
Unless you hoggin' lanes  
Ain't nobody breaking bread  
Unless you do the same  
You know the game boy  
Either you ride on heavy Chevy's or gliding  
On the Pirellis and sliding  
Pulling women to trying  
Best believe that we grinding  
Getting it where I stay  
We getting it every way and safe  
Before the end of the day

All the ballers ballin', all the jockers jocking  
All the hater's hating, all the boppers bopping  
Old lady cool, probably take her shopping  
Real G's let me hear it if you feel me knocking  
You can take me from my hood  
But you can't take my hood from me  
I rep my hood it's understood  
Say what 'chu want but all I know is  
Check me out, I'm holding  
Steady like I'm rolling  
Riding through yo hood  
I chunk the deuce up like I'm posing

Riding through yo city  
Rolling gutta like I'm bowling  
First I get it live then shut it down  
Like it's closing  
Early, long wide worly  
Kicking one deep 'cause you boys act girly  
Or maybe with a sweet big ice cream swirly  
Wrist gold neck, gold teeth, white pearly  
And you can catch me  
Like fish fries on a Saturday  
Ya momma looking good  
I like the way she work her hunny day  
She hopped up in the slab  
I say, "What 'cha wanna do today?"  
She looked at me and smiled then said  
"Boy, I'm doing you today"  
Fo' real, I guess that mean  
That I'm official now, it took awhile  
But now they recognize  
I'm on a mission now  
Stop, listen I got that full attention now  
Since I got attention  
It's the perfect time to mission out that  
Put one hand, cross my heart  
Want nothing see me apart  
From my home where I start  
I'm too smart and all I know is  
You can take me from my hood  
But you can't take my hood from me  
I rep my hood it's understood  
Say what 'chu want but all I know is  
It don't really matter much where I be

Never will you find another G like me  
You see a lot of people try to be like me  
But never will you find another G like me  
Man, I'm repping my hood for a long, long time  
Never will you find another hood like mine  
I hope that people got it understood like mine  
'Cause never will you find another hood like mine  
Put one hand, cross my heart  
Want nothing see me apart  
From my home where I start  
I'm too smart and all I know is  
You can take me from my hood  
But you can't take my hood from me  
I rep my hood it's understood  
Say what 'chu want but all I know is
