

She's Attracted to (Single Version)

The Young Knives

Who are these people?
They are too stupid to be your real parents
I've met some bone idles in my time
But they really take the biscuitI tried to make talk to them nice
I wanted them to like me, yeah
But the time went by and the look in their eye
Said it's never gonna do the trickShe's attracted to
She's attracted to
She's attracted toShes attracted to
Shes attracted to
Shes attracted toYour dad cornered me in the hallway
While you were in the loo
He gave me a right talking to
He said I was a terroristReason I tried but when reason she died
We were fighting in the drive under the security lights
And your mom was screamingShe's attracted to
She's attracted to
She's attracted toShe's attracted to
She's attracted to
She's attracted toWhen you finally joined the party
You took my side
Then the whole street knew
What was happening outsideYou were screaming at your mom and I was punching your dad
You were screaming at your mom and I was punching your dad
You were screaming at your mom and I was punching your dad
When you were screaming at your mom, I was punching your dadYou were screaming at your mom and I was
punching your dad
You were screaming at your mom and I was punching your dad
You were screaming at your mom and I was punching your dad
You were screaming at your mom and I was punching your dadYou were screaming at your mom and I was
punching your dad
You were screaming at your mom and I was punching your dad
You were screaming at your mom and I was punching your dad
When you were screaming at your mom and I was punching your dadShe's attracted to
She's attracted to
She's attracted toShe's attracted to
She's attracted to
She's attracted to
