

Rotting Head (Buffalo 1989)

Cannibal Corpse

A quivering pile of useless flesh, locked in a padded cell
Hidden from the prying eyes of curiosity
Experimental surgery made him what he is today
His head is rotting but his body lives on as a worthless vegetable
Unknown to mankind, the incredible power of his mind
Hideous heredity, genetic imbalance, resorting to
cannibalism
A feast begins as the patient's skull is cracked open like a walnut
Brains devoured in a frenzied slaughter, thirst for gore nothing more
Bile is dripping, pus from wounds, as the coroner drinks it down
The sights before your eyes you can't describe
A trip through this living hell will rot away your skull
Genital lacerating, anal asphyxiation
Blockade of bowel passage, defecation, hemorrhage
Cadaverous mutilation, metamorphical radiation
Devourance of arteries, decapitated extremities
Cranial excavation, cerebral liquidation
Brain turned to soup, ears are dripping goop
Slimy, cozing, dripping pus, torn out fingernails starting to fuse
Shredded cartilage victim lies, eye sockets, but no eyes
Miles of intestines strewn all about, facial features stricken with gout
Hanging bodies dripping with blood, the blackened fluid sinks in the mud
A quivering pile of useless flesh,
locked in a padded cell
