Save Me

[Kelly Osbourne](#)

From the look in my eye, why didn't you just save me?
And all of my friends think I'm losing my mind
I just can't believe I'm blinded by what I need
It's like an empty space, I need to fill the voidWhen you looked in my eyes you knew I needed saving
And when you saw me getting high why didn't you come save me?All of my life I've locked away my feelings
And all of this time I've been living a lie
I was so afraid, pathetically misleading
It was my empty space, I wanna kill my voidWhen you looked in my eyes you knew I needed saving
And when you saw me getting high why didn't you come save me?
When I blamed you for my lies why didn't you just tell me?
'Cause when I look in my eyes, there's nothing that would save inSomeone rescued me when I was sleeping
Somehow life went by when I was dreaming
Someone rescued me when I was sleeping, in my dreams
Save me, why didn't you just save me?When you looked in my eyes you knew I needed saving
And when you saw me getting high why didn't you come save me?
When I blamed you for my lies why didn't you just tell me?
'Cause when I look in my eyes, there's nothing that would save inSave me, why didn't you just save me?
Save me, why didn't you just save me?
