

Christmas Time Is Here

[Brian McKnight](#)

Well, the snow is beginning to fall
And the day of thanksgiving has come and gone
Silver bells begin to ring, hear little children sing
'Silent Night' was never just a song
Stockings are hung by the chimney with care
Its the most wonderful time of the year
Ice cream castles in the sky, there is happiness
In their eyes cause Christmas time is here
Ring a ding-ding wrapping presents, hearts reflect
The fires glow, I have you underneath the mistletoe
And all is fine, fall down like rain upon me, give me
Something I can feel, so then Ill know, then Ill know this is for real
Stockings are hung by the chimney with care
Its the most wonderful time of the year, ice cream castles
In the sky, there is happiness in their eyes cause Christmas time
Yes, Christmas time yes, Christmas time is here
