This Time Last Year

Mandalay

When when I met you
Evidently
You knew
And then if your kiss
I was full
Evidently
Since without you
UnfoldingThis time last year, you were here
This time last year, you were here
This time last year, you were hereSaid I miss you
I cannot choose
Tell me you should often do something
Without you here i'm into
Cut out in two
Since without you
UnfoldingThis time last year, you were here
This time last year, you were here
This time last year, you were hereIn all my innocence
I'm running 'round
In circles you won't allow
Against your bittersweet indifferenceI'm running 'roundThis time last year, you were here
This time last year, you were here
This time last year, you were here
