Hell Yeah!

A Black Rose Burial

Hell yeah, woo
Punk rock trippin' with the flavor of hip hop
Spittin' out venom as I'm watching all your heads bob
Representing for the outcasts and the have nots
Feigning to find light in a world that has blacked out
Your middle fingers up, yeah, put 'em up, we've had enough
We take a shot to the chin with a grin, we're tough
We know exactly why you're here so make it clear, let's go
We know you want to let's go, let's go
Hell yeah, hell yeah, we want control
Hell yeah, hell yeah, a scene to call our own
Hell yeah, hell yeah, I grip the microphone
And we're picking up speed like a rolling stone
Let's go, we can't live forever
One note, the louder the better
So let's go, we're in this together
Can't you hear me?
(Hell yeah, let's go)
Let's go, we can't live forever
One note, the louder the better
So let's go, we're in this together
Can't you hear me?
(Hell yeah, let's go)
Rising from the ash, counter clash, there is no doubt
Swinging from the rafters are the kids who never sold out
Holding out for hope, this shit is dope, hear the crowds shout
Fighting to survive, one day we'll make them tap out
We'll raise your voices up, yeah, raise 'em up, we've had enough
We're standing up and now we're being heard the gloves are off
The voice is loud, we have the crowd, the time is now, let's go
We know you want to let's go, let's go
Hell yeah, hell yeah, we want control
Hell yeah, hell yeah, a scene to call our own
Hell yeah, hell yeah, I grip the microphone
And we're picking up speed like a rolling stone
Let's go, we can't live forever
One note, the louder the better
So let's go, we're in this together
Can't you hear me?

(Hell yeah, let's go)
Let's go, we can't live forever
One note, the louder the better
So let's go, we're in this together
Can't you hear me?
(Hell yeah, let's go)
Get up tonight, stand up and fight
They are here, they are in sight, they're inside
And I can't go alone on this microphone
Is this on? Is this on?
This flow is definitive, make your throat hurt
A gagged voice with no choice, it's so limited
Hell yeah, come on, hell yeah, it's on
Bounce to the boom of the beat of the drum, drum
Let's go, we can't live forever
One note, the louder the better
So let's go, we're in this together
Can't you hear me?
(Hell yeah, let's go)
Let's go, we can't live forever
One note, the louder the better
So let's go, we're in this together
Can't you hear me?
(Hell yeah, let's go)
Hell yeah
