

# Bitter End

## Dixie Chicks

The words that you said they still ring in my head  
Don't you know?  
We say goodbye with a tear in our eye  
Oh, where'd you go? It's alright you can sleep tonight  
Knowing you'll always live on in a song Farewell to old friends  
Let's raise a glass to the bitter end  
Farewell to old friends  
Will you be the same when we see you again? Remember the days when we'd laugh as you'd play  
Who'd have known?  
The water would come and just take you away  
Oh, where'd you go? It's not alright, I can't sleep tonight  
Knowing you should have played on, on and on Farewell to old friends  
Let's raise a glass to the bitter end  
Farewell to old friends  
Will you forgive me when I see you again? You had a good time, drinking all of our wine  
After the show  
We all rode the wave of that crazy parade  
Oh, where'd you go? What happened to the ones we knew  
As long as I'm the shiniest star, oh, there you are Farewell to old friends  
Let's raise a glass to the bitter end  
Farewell to old friends  
We'll still be here when you come 'round again
