

# Get Yourself Another Fool

Paul McCartney

at last i've awake up to see what you've done  
so what can i can do but pack up and run  
i know the rules, go get yourself another fool you say that you love me, i'm yours to command  
but you kind loving, my heart couldn't stand  
you used me for a tool, go get yourself another fool and now, now that we're through  
you say, you meant to be true  
oh, but deep in your heart you know  
our love could never grow i try to believe you that we never ..  
but you can loving us broke my poor heart  
now i know the rules, go get yourself another fool and now, now that we're through  
you say, you meant to be true  
oh, but deep in your heart you know  
our love could never grow well i try to believe you that we never ..  
your kind of loving just broke my poor heart  
but i know your rules go get yourself another fool yeah you'd better get yourself, get yourself  
you'd better get yourself another fool  
go ahead and get yourself  
get yourself, get yourself another fool  
uuh
