Without You

Saga

I don't know how I got here
I don't know why you went away
I only hope you're listening
To what I'm tryin' to sayI'm just tryin' to reach you
Whatever way I can
Maybe if I hold you
And make you understandDon't know what you're thinking
Can't imagine how you feel
But I think you must be lonely
Living inside a dreamI'd do anything
To be right there where you are
Just know that I'll be waiting
Just don't go too farI built my world around you
You're always on my mind
I can't imagine life without you
Don't you realize?Don't care how you got there
But I won't let you slip away
I only hope you're listening
To what I'm tryin' to sayI'm just tryin' to reach you
What ever way I can
I just wanna hold you
And make you understandI built my world around you
You're always on my mind
I can't imagine life without you
Don't you realize?I built my world around you
You're always on my mind
I can't imagine life without you
Don't you realize?
