

# Be Your Man

Aaron Neville

I put her hand to my heart  
And said don't you feel how it's beating  
Don't be afraid  
Don't be afraid She held a child in her arms but  
She was the one who was weeping  
Baby blue eyes  
The color of the sky So if you're lonely, and you need me  
I'll be your man  
If ever trouble comes around you  
I'll be your man  
If you got something to go through  
Need someone to hold you  
Just take my hand  
I'll be your man  
I'll be your man She held that cross to her skin  
And said Jesus, you hear how I'm pleading  
A rose colored lens  
To cover up my sins She held her feelings within  
And suddenly screamed out in pain  
Where have you been  
I been here all along So if you're lonely, and you need me  
I'll be your man  
If ever trouble comes around you  
I'll be your man  
If you got something to go through  
Need someone to hold you  
Just take my hand  
I'll be your man  
I'll be your man I'm the burning ember in your heart  
If you lose your way  
I'll be your fire in the dark So if you're lonely, and you need me  
I'll be your man  
If ever trouble comes around you  
I'll be your man If you got something to go through  
Need someone to hold you  
Just take my hand  
I'll be your man  
I'll be your man
