

Destruction

Loverboy

Destruction
Destruction
Destruction You say the situation
Is getting out of hand
I guess you know the reason why
But now it's hit the fan
Sometimes you feel so helpless
Well, think again Destruction
Destruction
Destruction
Destruction Forget the boring details
We're only splitting hairs
The way things are right now
You'll need a knife to cut the air
Well, nothing's going to stop us now
So who cares? (Destruction) times are changing, someone's losing control
(Destruction) steal the future, now, or nothing at all
(Destruction) every danger is a stranger to trust
(Destruction) the cost will make it roll into dust You'll regret it, don't think deserver with consequence
(No self-destruction, no self-destruction)
Why should we quit now? we've shattered every defense
(No self-destruction, no self-destruction)
No compromises, confusion starts to slide
(No self-destruction, no self-destruction)
The problem is the joker's running wild, yeah, wild (Destruction) times are changing, someone's losing control
(Destruction) steal the future, now, or nothing at all
(Destruction) every danger is a stranger to trust
(Destruction) the cost will make it roll into dust
(Destruction) I know we're going to make it to Heaven this time
(Destruction) take the power, let it be yours and mine (Destruction) gotta finish what we came here to start
(Destruction) ain't stopping what be stuck in the dark, you know
(Destruction) got conviction to keeping the part
(Destruction) you know, you know, you know
(Destruction) you know
(Destruction)
