

# Fiend

## Pestilence

It's the darkest place  
Like beneath the stairs  
The [Incomprehensible] it comes  
And it takes me everything, everything in sight  
All through the night  
Leaving scars  
And crashing cars  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
You my life  
For everyone to see  
For you a charade  
For me a disease  
And everything in sight  
All through the night  
Leaving scars  
And fucking stars  
Still reasoning my life  
Still reasoning my life  
Still reasoning my life  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Still reasoning my life  
Still reasoning my life  
Still reasoning my life  
It's do or die  
It's do or die

It's do or die  
It's do or die  
It's do or die  
It's do or die  
Not for me  
Still reasoning my life  
Still reasoning my life  
Still reasoning my life  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Fiend for the fans and  
Fodder for the press  
Still reasoning my life  
Still reasoning my life  
Still reasoning my life  
Fucker
