

# Gonna Change

## Kingdom Come

I've seen a million girls before  
A wanting I just can't ignore  
Keep on searching, far too much  
Always craving, women's touch  
I feel attraction all the time  
Keep giving out a million signs  
Been deceiving, no regards!  
Kept misleading, many hearts  
Run down, feeling so strange  
Hold out, I'm gonna change  
Don't cry and you will see  
No lies, you're all I need  
Really want to see your smile  
I would hate to watch you cry  
Run down, feeling so strange  
Hold out, I'm gonna change  
Don't cry and you will see  
No lies, you're all I need
