I Never Fall Asleep At Night

Crash Test Dummies

Watch that spider in the bathroom sink
Hes a better friend than you might think
So let him spin his web in peace
He catches creepy crawly thingsI never fall asleep at night
I never get the chance
My thoughts won't stop spinning round
They dance and dance and danceWatch each hair on your head turn gray
Look out the window and count your days
One two four five six seven eight
There ain't much to love and there's plenty to hateI never fall asleep at night
I never get the chance
My thoughts won't stop spinning round
They dance and dance and danceLook at that bone-yard over there
You can see it out the window from the kitchen chair
I wanna see my name carved in one of them stones
I wanna be part of them rottin' bonesI never fall asleep at night
I never get the chance
My thoughts won't stop spinning round
They dance and dance and dance
