

# The Spell of the Winter Forest

## Hecate Enthroned

Hecate Enthroned  
The Spell Of The Winter Forest in the darkness  
i awaken  
as once again  
beneath the cover of the night sky  
we indulge  
in alliance of sathanas  
the infinity  
pounding at dawn  
where shadows fear tread  
as dark invokes me  
i vow to thee  
for my enemies shalt suffer  
for we are the brave  
i have eternity  
in which we shalt dwell

dying \*\*\*\*\*"deep in the forest...deep in the spell...drink deep in the promise of the midnight" To dream of  
secrets, and desires in witch craft "Immortal, Salvation, I bleed the sky, for he rhythes upon the cross, bleeding the  
Jewish lies
