Shout In Silence

Katherine Jenkins

My silent wish is to be back with you
The love I left I canÂ't forget
But it would kill me if you knew

My silent words are all I have to say
There was no doubt it would all work out
When I walked away

To late to turn it all around
Too late to say IÂ'm sorry now

Strong sure and proud
Regrets not allowed
Too scared to let it out
I hope in silence
I pray in silence
I shout in silence

I can see right where I want to be
But itÂ's hard to heal and impossible to feel
When your heartÂ's not free

It hurts knowing I was wrong
It hurts but I will carry on

What do I feel Tell me what do I feel
WhatÂ's the use of turning back the time
The more that I say seems the more that I pay
Best for now to keep it all inside

Strong sure and proud
Regrets not allowed
Too scared to let it out
I hope in silence
I pray in silence
I shout in silence
