La Dolce Vita

Paul van Dyk

We're walking like in a Dolce Vita This time we got it right We're living like in a Dolce Vita Mmm, gonna dream tonight We're dancing like in a Dolce Vita With lights and music on Our love is made in the Dolce Vita Nobody else than you It's our last night together with our love again Another light before we drown in darkness Say you'll never leave me now Say you're gonna love me It's our last night together with our love again Another light before we drown in darkness Say you'll never leave me now Say you're gonna love me now Haha! We're walking like in a Dolce Vita Mmm, gonna dream tonight We're dancing like in a Dolce Vita Nobody else than you It's our last night together with our love again Another light before we drown in darkness Say you'll never leave me now Oh, say you're gonna love me It's our last night together with our love again Another light before we drown in darkness Say you'll never leave me now Say you're gonna love me now
