# Unhappy

## Jam City

I can see it now
How they got away with it
I was foolish for a while
See there's no time to doubt in The West
But sometimes its like we're stuck
Like we're not allowed to grow up
I was ashamed but it's not enough
And he says "soon we'll get used to
treating each like the ones you -
that you watch on XTube"
Tell me are we unhappy?
Are we unhappy?
Are we unhappy?
We could be happy tooMen are gonna regret
Growing up in total war
You can prove it in your music
The will to disconnectSticky the glue, like suburbans
I fold a flame to the curtains
I know you're not certain
And we share this nightmare in a blue room
But i know you're not so cynical
And you don't sleep like your friends do
Tell me are we unhappy?
Are we unhappy?
Are we unhappy?
Are we unhappy?
We could be happy
We could be happy
I was unhappy,
before I met you
