Drunk Again

Thee Waltons

Kathy please just go away
Don't let hazel see you when you're high
Just take a walk to your sleazy bar
Come back after I've come down
Cross the street on your knees
Makes me ashamed it's hard to sleep
I can't shake your pain
You get high, you'd just throw it away
Hey Kathy, please give me a break
I told you not to come here when you're drunk again
I'm sober now just 30 days
All alone and working hard to stay that way
Cross the street on your knees
Makes it hard it's hard to see
I can't shake your pain
You get high, you'd just throw it away
Kathy please, yeah, yeah
I don't want to see you when you're down
Just leave me be and go away
You're not going to pull me down
I won't let you throw it away
