

What If You Stay

Chuck Wicks

I cant make you turn around
I cant take back what I did
Wouldnt blame you if you hated me Before you slam that open door
Throw away four good years
Think of everything we used to be I know you say that youre over me
But I'm asking you, begging you not to leave What if I told you I'd change
Would you still walk away?
What if I told you I loved you
Would you say that its too late? What if you could feel what I feel
When I watch you slowly drift away?
What if youre wrong? What if I'm right?
You could move on but what if you stay? Know right now its hard to breathe
Hard to think and hard to see
All the reasons we should work it out It might be easier to go
But if you walk out well never know
How strong we could be at the end of this Know that sorry is not enough
But I'll do everything, anything to make it up What if I told you I'd change
Would you still walk away?
What if I told you I loved you
Would you say that its too late? What if you could feel what I feel
When I watch you slowly drift away?
What if youre wrong? What if I'm right?
You could move on, what if you'd stay? What if I told you I'd change
Would you still walk away?
What if I told you I loved you
Would you say that its too late? What if you could feel what I feel
When I watch you slowly drift away?
What if youre wrong? What if I'm right?
You could move on, what if you stay? Ooh I cant make you turn around
I cant take back what I did
Wouldnt blame you if you hated me
