

Till Death Do Us Part

White Lion

As we walk the golden mile
Down the pretty aisle
I know that you are mine And there's nothin' in this world
That I know I wouldn't do
To be near you every day
Every hour, every minute Take my hand
And let me lead the way All through your life
I'll be by your side
Till death do us part Baby, I'll be your friend
My love will never end
Till death do us part When I wake up every day
With you lyin' in my arms
I wonder if I'm dreamin' When I look into your eyes
I just can't believe it's true
That my heart belongs to you
Baby, we can have it all Girl, take my hand
And let me lead the way All through your life
I'll be by your side
Till death do us part Baby, I'll be your friend
My love will never end
Till death do us part There'll be good times
And there'll be bad
But I will stand beside you
Woman, all the way And through the years
As life will put us through
When snow will fall on winter nights
I'll keep you warm inside
Yeah, baby, I will All through your life
I'll be by your side
Till death do us part Baby, I'll be your friend
My love will never end
Till death do us part Yeah, baby, I'll be there
All through your life
I'll be by your side
Till death do us part Baby, I'll be your friend
My love will never end
Till death do us part Yeah, baby, I'll be there
Baby, I'll be there
All through your life

And I know that you'll be there
I know that you'll be there
Waiting for me Yeah, baby, I'll be there
Baby, I'll be there
All through your life
And I know that you'll be there
I know that you'll be there
Waiting for me
