I'm Bored

Ignite

I'm bored with all the lies you're tellin' me
I'm bored with all this negativity
You try, turn everything around on me
I'm boredTime has passed, I've paid my dues
These wounds have finally healed
But I survived, I've learned my lessons
I'm finally freeI'm bored with all the lies you're tellin' me
I'm bored with all these fights, I can not sleep
You try, I'm always somehow the bad guy
I'm boredTime has passed, I've paid my dues
These wounds have finally healed
But I survived, I've learned my lessons
I'm finally freeI have survivedThe rules that you live by
Betrayal by false friends
I've paid my dues
I've lived with you for many long wasted yearsThe rules that you live by
Called on by friends
Ignorance is bliss, blinded by it
Burned once againThe rules that you live by
Betrayal by false friends
I've paid my dues
I lived with you for many wasted long yearsBetrayed
By false friends time and time again
Betrayed
By false friends time and time againYou wash your hands, you quit us man
Burned once again
You wash your hands, you quit us man
Burned once againI have survived
