

Ghost of a Friend

Supergrass

The ghost of a friend came down to me
Singing don't go back to misery
She spread out her wings and said, "Listen to me
This ain't no place for you to be
Oh, my darling you can set me free" So I packed up my sorrows and I followed her down
To the Westway road heading out of town
The grass is greener off the beaten track
So come with me and we won't look back Oh, my darling I could only try
They're the clowns that've taken the town
Yeah, the fools here are running me down
Well, I don't need them around, they got nothing on you
They got nothing on you, no And the lady sings
Ooh, ah, ooh Now the ghost of a friend is leaving me
For another dark place of misery
But the fires burning and the winds they change
I know I'll see my friend again
Oh, my darling you have made me see There is always a circus in town
With the vultures, the peacocks and hounds
Well, I don't need that around, they got nothing on you
They got nothing on you, no And the lady sings
Ooh, ah, ooh And oh, oh, oh, oh, oh, oh, oh You see there's always a circus in town
All the vultures and peacocks and hounds
Well, I don't need them around, they got nothing on you
They got nothing on you, no And the lady sings
Ooh, ah, ooh
Well, there she goes
Ooh, ah, ooh
