

# Survival

## Clint Crisher

My memory is fading  
I can't respond  
to my heavy soul  
be real  
survival Get back get back get back get back realism  
It will take you to a trance  
if you let it flow  
knowing how you feel  
it was always a thrill  
Get back get back get back get back realism  
be real be real be real be real I only want to be real  
i'm not in control  
second are hours in this fight for survival  
Get back get back get back get back realism  
the everlasting thrill  
notice nothing passing by you  
second are hours in this fight for survival  
realism  
Be real my memory is fading  
Be real my memory is fading  
Be real my memory is fading  
My memory is fading You don't understand  
My memory is fading  
help me to remember  
what it means to be real  
in touch with it all  
I can't respond to my heavy soul  
I only wan't to be real  
I'm not in control  
I only wan't to be real  
I'm not in control  
I only wan't to be real  
I'm not in control  
I only wan't to be real I only want to be real  
i'm not in control  
second are hours in this fight for survival  
Get back get back get back get back realism  
the everlasting thrill  
notice nothing passing by you

second are hours in this fight for survival  
Get back get back get back get back realismCommunications the key to survive  
reputation face to face  
the record the answer  
perception not worth the grace  
the only record the only judgement  
the only reference face to face  
then judgement  
be real be real be real be realBe real my memory is fading  
Be real my memory is fading  
Be real my memory is fadingSurvival
