Smile For The Camera

Hot Chelle Rae

I'll take your picture 'cause you're beautiful
And I've never seen a girl like you. (like you)
The camera loves it when you strike a pose
I've never seen someone with eyes that blue.And she said
I can hear them coming
I won't stop running
And I'll never let them sell me out
Waiting for the edge and the lights keep flashin
But they're never gonna catch me now
Everybody's staring at everything I'm wearing
From the second I step out of my house
Paparazzi think they got me but I'll never let them stop me
And they're never gonna catch me now.So smile for the camera. (smile, smile)They say a pictures worth a thousand words
But who are they to say how much you're worth (you're worth)
I'm just a camera you're my high fashion baby
Frame by frame it's just the way we work.And she said
I can hear them coming
I won't stop running
And I'll never let them sell me out
Waiting for the edge and the lights keep flashin
But they're never gonna catch me now
Everybody's staring at everything I'm wearing
From the second I step out of my house
Paparazzi think they got me but I'll never let them stop me
And they're never gonna catch me now.So smile for the camera. (smile)
Smile for the camera. (smile)
Smile for the camera (smile)
Smile for the Camera (smile)
Smile for the cameraI can hear them coming
I won't stop running
And I'll never let them sell me out
Waiting for the edge and the lights keep flashin
But they're never gonna catch me now
Everybody's staring at everything I'm wearing
From the second I step out of my house
Paparazzi think they got me but I'll never let them stop me
And they're never gonna catch me now.I can hear them coming
I won't stop running

And I'll never let them sell me out
Waiting for the edge and the lights keep flashin
But they're never gonna catch me now
Everybody's staring at everything I'm wearing
From the second I step out of my house
Paparazzi think they got me but I'll never let them stop me
And they're never gonna catch me now.
