

Words of Change

Heavenly

There's sometimes
When something passes through my mind
And my dreams it looks like real and true
Comes to me, a vision of my life, my story
Can't you see my loneliness and fear? Like the wind my spirit is flying in the air
Suffering's sharing my nightmares
Until I find my way
Until I find who I am I'm waiting for my pride, chance coming from desire
The future is by my side, yes, I know
I'm waiting for my turn, for my dreams not realized
Last crying for me tonight, night Like the wind, my spirit is flying in the air
Suffering's sharing my nightmares
Until I find my way
Until I find who I am I'm waiting for my pride, chance coming from desire
The future is by my side, yes I know
I'm waiting for my turn, for my dreams not realized
Last crying for me tonight, night I'm waiting for my turn, for my dreams not realized
Last crying for me tonight, night
