

# Is It Day or Night?

## The Runaways

I don't like to live alone  
Out on the avenue  
I can't go back to being straight  
I've seen the gutter view Is it day or night?  
Porcupine kiss, Novocaine lips  
Is it day or night?  
White flowers weep  
In their warm dust sleep  
And its dog eat dog tonight Back door to insanity  
Was ripped from their throats  
Street wise hustlers and six string masters  
Look cold in their over coats Is it day or night?  
Porcupine kiss, Novocaine lips  
Is it day or night?  
White flowers weep  
In their warm dust sleep  
And its dog eat dog tonight
