

# Lanterns (B-Sides Version)

## Rise Against

This night will fall like any other  
Daylight subsides and shadows crawl out from under  
That corner's hiding something stirs  
Oh so restless, cracked windows opened wide  
Deadbolt turns, doors creak open  
Whispers and moonlight there to guide  
Come raise your lantern to the sky  
Can we illuminate this night  
We'll dance like heathens round our flame  
While the world sleeps we are awake  
The black bird calls, it sings a chorus  
While the gathering swells  
The flames built tall right before us  
As drums keep pounding  
And the masses now are fusing  
Bodies pressed and tangled  
As we revel in confusion our inhibitions thrown into the fire  
Come raise your lantern to the sky  
Can we illuminate this night  
We'll dance like heathens round our flame  
While the world sleeps we are awake  
Here in the dark we are safe from the judgment  
And now arm in arm, locked tight so no one gets in  
The Heaven-sent say, "Child you are Hellbent"  
But Hell is not where we're going  
Hell's where we've been  
Come raise your lantern to the sky  
And let's illuminate this night  
We'll dance like heathens around the flame  
And while the world sleeps we are awake  
Raise your lantern to the sky  
And let's illuminate this night  
We'll dance like heathens around the flames  
While the world sleeps we are awake  
(Raise your lantern to the sky)  
Yeah we are alone  
We are awake  
(Raise your lantern to the sky)  
Yeah we are the light  
We are the way
