

Live.Young.Forever

Big Sixes

I've got a secret
Don't know where to keep it
It runs in my head every time every time that I'm sleeping
right in my own bed
where it started the reason
It's that I'm young bored and conceited Don't try and say you're insecure
When you've got one eye on the door
I'm not a boat but see I'm pretty sure
You're far too pretty to be on all fours Live young forever
I've been dying to figure out how
To live young forever
Cause I'm so sure that this town will swallow me whole
But I've got a plan to choke it, I've got a plan so I
I've got a (secret)
DON't know where to (keep it)
It runs in my head every time every time that I'm sleeping
Right in my own bed
where it started the reason
It's that I'm young bored and conceited Don't try and say you're insecure
When you've got one eye on the door
I'm not a boat but sea I'm pretty shore
You're far too pretty to be on all fours Live young forever
I've been dying to figure out how
To live young forever
Cause I'm so sure that this town will swallow me whole
But i've got a plan to choke it, I've got a plan so I
And I've got a plan
That if you hold my hand
With the tip of my tongue and a click of my fingers
and I've got a plan
That if you hold my hand
With the tip of my tongue and a click of my fingers
