

This Christmas

[IceJFFish](#)

Girl you're the one I want for this Christmas
Girl you're the one that's on my wish list
Girl come over here and we can do business
Girl we can have fun so fun on this Christmas Girl you're the reason I think I exist
Without our relationship I would never exist
Girl you wouldn't believe what I bought you wasn't presents
Something that unique thinked that was so pleasant Girl you're the one I want for this Christmas
Girl you're the one that's on my wish list
Girl come over here and we can do business
Girl We can have fun so fun on this Christmas
Girl you're the one I want for this Christmas
Girl you're the one that's on my wish list
Girl come over here and we can do business
Girl We can have fun so fun on this Christmas
Girl I want to get something good on this Christmas
You make me want to tell the whole world our business
Everything about you is just so splendid
Girl you're the one I want for this Christmas
There's so many things that I want on my wishlist
But you always been number one up on it
It's hard to understand I never gave you a warning
But you're the one that keeps my heart warming Girl you're the one I want for this Christmas
Girl you're the one that's on my wish list
Girl come over here and we can do business
Girl We can have fun so fun on this Christmas
Girl you're the one I want for this Christmas
Girl you're the one that's on my wish list
Girl come over here and we can do business
Girl We can have fun so fun on this Christmas
There's something that you should know
I just can't let you go
So when its that time you see the snow
I want everybody to know Girl you're the one I want for this Christmas
Girl you're the one that's on my wish list
Girl come over here and we can do business
Girl We can have fun so fun on this Christmas
Girl you're the one I want for this Christmas
Girl you're the one that's on my wish list
Girl come over here and we can do business

Girl We can have fun so fun on this Christmas
