

Gunning Down Romance

Savage Garden

Love and other moments are just chemical reactions in your
Brain, in your brain
And feelings of aggression are the absence of the love drug in your
Veins, in your veins
Love come quickly
'Cause I feel my
Self esteem is cavin' in
It's on the brink
Love come quickly
'Cause I don't think
I can keep this monster in
It's in my skin
Pah pah
Pah pah
Love and other socially acceptable emotions are
Morphine, they're morphine
Cleverly concealin' primal urges often felt but rarely
Seen, rarely seen
Love I beg you
Lift me up into that
Privileged point of view
The world of two
Love don't leave me
'Cause I console myself that
Hallmark cards are true
I really do
Pah pah
I'm gunnin' down romance
It never did a thing for me
But heartache and misery
Ain't nothin' but a tragedy
I'm gunnin' down romance
It never did a thing for me
But heartache and misery
Ain't nothin' but a tragedy
Love don't leave me
Take these broken wings
I'm gonna take these broken wings
And learn to fly

And learn to fly away
And learn to fly away
(I'm gunning down romance)
And learn to fly away
I'm gonna take these broken wings
(I'm gunning down romance)
I'm gonna take these broken wings
(I'm gunning down romance)
And learn to fly
And learn to fly away
And learn to fly away
(I'm gunning down romance)
And learn to fly away
I'm gunning down romance
I'm gunning down romance
I'm gunning down romance
