

# Time

Sandi Thom

Roller skates and bumblebees  
Holding hands and grazing knees  
Dressing up and falling down  
Paul and Mike are coming 'round  
Being good to stay up late  
Forgot to shut the garden gate  
Built a house up in a tree  
Been making plans since I was three  
'Cause time, it catches everyone  
And the world goes 'round the sun  
But the memory lives on in the heart  
Going back to the start  
Skiving French and stealing Mars  
Hanging out in Rosie's bar  
Getting changed straight after school  
Smoking fags and playing pool  
Rainbow coming over me  
But I like Graham Connelly  
Getting caught in someone's car  
This time, kid, you've gone too far  
'Cause time, it catches everyone  
And the world goes 'round the sun  
But the memory lives on in the heart  
'Cause time, it catches everyone  
And the world goes 'round the sun  
And the memory lives on in the heart  
Going back to the start forever, forever, forever  
Up and down to Liverpool  
Learning lines to play the fool  
Hanging out at Hannah's bar  
Got too drunk to drive the car  
And even though I'd love to stay  
It's time to work not to time to play  
And even though you're now for me  
Soon you'll be a memory  
'Cause time, it catches everyone  
And the world goes 'round the sun  
But the memory lives on in the heart  
'Cause time catches everyone

And the world goes 'round the sun  
But the memory lives on in the heart  
Going back to the start, forever, forever, forever
