

Write It In Lightning

Rex Goudie

Back beat like an axe
Coming down on the melody
Time to give into
Better living through the chemistryEight foot letters
Can't read the writing
If you want me to see
You better write it in lightning
Better write it in lightning
Better write it in lightningTake a swing at me now
Tear a strip off me anytime
It don't even matter
If the punishment fits the crimeI'll stick my hand in between
Two Doberman fighting
If you want me to see
You better write it in lightning
You better write it in lightning
You better write it in lightning
