

# The Dresses Song

[Lisa Germano](#)

You make we want to wear dresses  
You make we want to wear dresses  
    You look at me so fragile  
        Take me to your castle  
        It feels so good in there  
    Much much safer in your castle  
        Mine got lost somewhere  
You make we want to wear dresses  
You make we want to wear dresses  
    You look at me so fragile  
You make me think about nothing  
    It feels so good like that  
    You look at me so fragile  
        So full of desire  
        Wide wide open spaces  
You make me want to wear dresses  
    Wide wide open spaces  
You make me want to wear dresses  
You make me want to wear dresses  
    You look at me so fragile  
        Wide wide open spaces  
        Wide wide open spaces  
        Take me to your castl  
        It feels so good in there  
    Much much safer in your castle  
        Mine got lost somewhere  
You make me want to wear dresses  
You make me want to wear dresses  
Its much much safer in my dresses  
You make me want to wear dresses
