

Sex on the Radio

KONGOS

We all live on an idle TV show
Get turned on by sex on the radio
Yeah it's low Now she walks and talks like everybody else
Loses control and she ends up in a motel
Yea it hurts like hell And all our secrets go
Out the window
And all the world knows now And love is always out of reach
It's always out of reach
It's always out of reach
But I never want to stop trying, no Sex on the radio
Sex on the radio
They're playing sex on the radio
Sex on the radio Imitation slave the stoner's stuck in bed
And while off camera, he says fuck protest
No he's gotta get some rest. And all our secrets go
Out the window
And all the world knows now And love is always out of reach
It's always out of reach
It's always out of reach
But I never want to stop trying, no Sex on the radio
Sex on the radio
They're playing sex on the radio
Sex on the radio And love is always out of reach
It's always out of reach
It's always out of reach
But I never want to stop trying, no
