

# Can I Get Your Number (a Girl Like You)

## No Authority

Can I get your number, baby?  
Hit me with the seven digits  
Can I get your number, baby?  
Hit me with the seven digits  
When you walked through that door  
I nearly lost my mind  
Your sexy attitude  
And something 'bout your smile  
I knew right then and there  
I had to know your name  
I had a crush before  
But this just ain't the same  
'Cause I've never fallen in love before  
With a girl I didn't even know  
And there's somethin' about you  
That tells me that I should be down  
I've been east, I've been west  
Even all around the world  
But I've never seen a girl like you  
Seen a girl like you  
I've seen blondes and brunettes  
And some really hot redheads  
But I've never seen a girl like you  
Seen a girl like you  
Can I get your number, baby?  
Hit me with the seven digits  
Must be a supermodel  
You're a perfect ten  
Your body's off the hook  
And girl I must confess  
If you were on display  
I'd wait all week in line  
Please check my vision  
'Cause I can't believe my eyes  
'Cause I've never fallen in love before  
With a girl I didn't even know  
And there's somethin' about you  
That tells me that I should be down, down  
I've been east, I've been west

Even all around the world  
But I've never seen a girl like you  
Seen a girl like you  
I've seen blondes and brunettes  
And some really hot redheads  
But I've never seen a girl like you  
Seen a girl like you  
Can I get your number, baby?  
Hit me with the seven digits  
Can I get your number, baby?  
Hit me with the seven digits  
I've never fallen in love before  
With a girl I didn't even know  
But there's something about you  
That tells me that I should be down  
I've been east, I've been west  
Even all around the world  
But I've never seen a girl like you  
Seen a girl like you  
I've seen blondes and brunettes  
And some really hot redheads  
But I've never seen a girl like you  
Seen a girl like you  
I've been east, I've been west  
Even all around the world  
But I've never seen a girl like you  
Seen a girl like you  
I've seen blondes and brunettes  
And some really hot redheads  
But I've never seen a girl like you  
Seen a girl like you  
I've been east, I've been west  
Even all around the world  
But I've never seen a girl like you  
Seen a girl like you  
I've seen blondes and brunettes  
And some really hot redheads  
But I've never seen a girl like you  
Never seen a girl like you  
I've been east, I've been west  
Even all around the world  
But I've never seen a girl like you  
Seen a girl like you  
I've seen blondes and brunettes  
And some really hot redheads

But I've never seen a girl like you  
Like you
