

# The White Dress

## Pet Shop Boys

I see you wore the white dress  
the right dress to suggest  
what all the waiting media  
will never hear expressed  
I've known you now  
for many years

Seen what you have survived  
the many human obstacles  
that destiny devised  
but when you wore the white dress  
I knew you had arrived

Song Discussions is protected by U.S. Patent 9401941. Other patents pending.
