

More Stars Than There Are In Heaven

Yo La Tengo

Never read Proust
Seems a little too long
Never used the hammer
Without somehow using it wrong
I've got time on my hands
That I can't wash off
I'm cruising..
I cant shake this car
Walls are closing in
They often do
I'm seeing double and triple
Does this ever happene to you?
I don't have to make it rainBut I never argue a proven reviewNever wear a helmet
when I'm riding a bike
Never recall a face
to me they all look alike
I've got a hole in my brain
where what I meant to say lives
I'm live in the past
And give back gifts and gifts
Walls are closing in
They often do
I'm seeing double and triple
Does this ever happene to you?
I don't have to make it rain
But I never argue with a proven view(solo)
