

# Wake 'n Bake

## Simplified

It started with a wake and bake  
said we feel alright  
got to hit the road soon  
got a show tonight

so come on, let's get it right now  
so come on, let's get it tight now  
so come on, started with a wake and bake  
said we feel alright, yeah

the lungs roll by  
as I sit inside  
while they spark the flame  
we ain't got no lube dog  
but the van still smells the same

so come on, let's get it right now  
so come on, let's get it tight now  
and everything will be alright  
once we spark the flame

and I feel so good tonight  
said we feel alright  
and I don't think I'll get to sleep  
before first light  
so come on, let's get it right now,  
so come on, let's get it tight now,  
so come on, hangin with my friends tonight  
said we feel alright, yeah

now just a little wake n bake,  
said we feel alright,  
got to hit the road soon,  
got a show tonight

so come on, let's get it right now  
so come on, let's get it tight now  
so come on, come on, come on, come on  
now now, feel, now now, pouring rain

now here come the sun,  
strawberry fields,  
the joke of, a smoke of, the midnight toker  
and it's all alright, all of us  
let's take a little ride on that magic bus

so come on, let's get it right now  
so come on, let's get it tight now  
started with a wake and bake  
said we feel alright
