

Just Like Me

Amerie

I'd given up on love and I gave up on the chance that I'd ever fall
Head over heels, yeah, and all the stars I wished upon, I never thought
That one would fall down on me and ooh, it's good to know There's somebody, somebody who feels like me
(Hey, umm, though it's good to know)
There's somebody, somebody who loves like me
(Yeah, I've waited all my life) For somebody, for somebody who can do it like me
(And ooh, it's good to know)
Found somebody, found somebody who's just like me
(Like me)
Somebody who's just like me Now here we are and I wanna make the most of it
Wanna hold you and get close to it
Baby, let me love you, don't let go and promise that you won't forget I want you for myself, better know, I'm
not gonna share
I wanna feel you deep inside of me
I'm so happy that you came to me and ooh, I can't believe There's somebody, somebody who feels like me
(Wow, that there's somebody)
There's somebody, somebody who loves like me
(Who can do it like me)
(I've been waiting all of my life) For somebody, for somebody who can do it like me
(Who, who can do it like me)
Found somebody, found somebody who's just like me
(Aah, yeah, who's just like me)
Somebody who's just like me (Everytime I look into your eyes)
When I look in your eyes, I
(I just think of how you changed my life)
Yeah, oh yeah, every kiss, every touch
(Kiss, touch)
Even a scent of you all over me When you leave
(When you leave, I can't sleep)
Till you're back in my arms
(And I need you)
Can't you see before you, babe, I wasn't livin' but now There's somebody, somebody who feels like me
(There were somebody like me, oh)
There's somebody, somebody who loves like me
(Yeah, said, you know, didn't know somebody) For somebody, for somebody who can do it like me
(Waited all my life)
Found somebody, found somebody who's just like me
(For somebody like, for somebody like me)
Somebody who's just like me

(Ooh, like me, yeah) There's somebody, somebody who feels like me
There's somebody, somebody who loves like me
For somebody, for somebody who can do it like me
Found somebody, found somebody who's just like me
