

# Girl Next Door

## Last Winter

Long Beach Shortbus - Girl Next Door  
She don't need no Maseratti  
I don't even own my car  
And when I feel like I'm nobody  
She make me feel like I'm a star  
So let me get upon her heart  
Let me get upon her mind  
Let me get upon her body  
Let me get upon her soul  
Little girl next door  
Let me get a nickel, let me get a dime  
Take a nickel in my pocket and we'll spend some time  
Let me get a pound, let me get a pound  
Father won't you quicker spin the hands of times  
Spit a simple limerick, a riddle or a rhyme  
Let me get a pound, let me get a pound  
Little girl next door  
Better be polite when you speak to my lady  
You got to treat a woman with respect  
And if you think of doing harm to her baby  
You best believe that I'll be breaking your neck  
So let me get upon your heart  
Let me get upon your mind  
Let me get upon your body  
Let me get upon your soul  
Little girl next door  
I'm gonna move into her house  
And she won't be the little girl next door no more no  
Little girl next door  
Para los tiempos buenos (For the good times)  
Te amo por vida, juro (I love you for life, I swear)  
Para los tiempos buenos (For the good times)  
Mi amor esta por vida (My love is here for life)  
It's been long, long, long, long, lovy, lovy, long, long time, juro  
Long, long, long, long, lovy, lovy, long, long time  
Little girl next door
